IT Manager | Project Manager | Digital Transformation | Data Center and Cloud infrastructure | AI integration

## Summary

**IT Manager with 20+ years of experience in Information Technology,** including 8.5 years in **leadership roles managing enterprise infrastructure, cloud environments, and digital transformation initiatives.** Proven expertise in **data center operations, virtualization, cybersecurity, and enterprise network architecture.**
Track record of modernizing legacy IT systems, including **migrating physical infrastructure to virtualized environments reducing operational costs by up to 70%**. Experienced in leading cross-functional teams, managing large-scale infrastructure projects, and delivering secure and scalable technology solutions aligned with business objectives.

## Key Achievements

- ✓ Migrated legacy infrastructure to a virtualized environment, reducing operational costs by up to 70%.
- ✓ Led multi-vendor IT teams of over 100 technical contributors, improving project delivery efficiency.
- ✓ Reduced system downtime by 40% through infrastructure upgrades and network optimization.
- ✓ Contributed to the $1M Data Center redesign project for the Yanbu Smart City initiative in Saudi Arabia.
- ✓ Designed GIS infrastructure covering 16,000 km of electrical networks and 140,000 customers in Oman.

## Core Expertise

- ✓ IT Infrastructure & Data Center Management
- ✓ Cloud Migration & Virtualization (VMware, Hyper-V)
- ✓ Cybersecurity & Risk Management
- ✓ IT Strategy & Digital Transformation
- ✓ Network Architecture & Enterprise Systems
- ✓ Disaster Recovery & Business Continuity Planning
- ✓ Vendor, Procurement & Budget Management
- ✓ IT Policy Development & Governance
- ✓ Automation & AI Integration in Business Operations
- ✓ Technical Leadership & Cross-functional Team Management

## Technical Skills

- ✓ **Infrastructure & Systems:**
  Windows Server (2000–2019), Red Hat Linux, VMware ESXi, VMware Workstation, Hyper-V, Physical & Virtual Server Management, Data Center Infrastructure, Active Directory, Group Policy, Server Deployment & Maintenance
- ✓ **Networking & Security:**
  TCP/IP, DNS, DHCP, VPN, Fortinet Firewalls, Network Monitoring, Solarwinds, Endpoint Security, Antivirus Management, Network Troubleshooting, ISP Infrastructure & Network Operations
- ✓ **Cloud & Virtualization:**
  Cloud Migration, VMware Infrastructure, Virtual Machine Lifecycle Management, Hybrid Infrastructure, AWS Platforms
- ✓ **Databases:**
  Oracle, SQL Server, MySQL, PHP, Database Administration, Web Hosting & Website Deployment
- ✓ **Enterprise Platforms:**
  Microsoft 365, Odoo ERP, CRM Integration, System Monitoring & Performance Optimization
- ✓ **Backup & Recovery:**
  AWS Acronis Backup, Veeam Backup & Replication, Disaster Recovery Planning, Data Replication, Business Continuity Management
- ✓ **Collaboration & Automation:**
  ChatGPT, Claude AI, Asana, Slack, Notion, AI-Driven Reporting, Workflow Automation

## Digital & AI Capabilities

- ✓ Social Media Strategy & Content Creation (Meta / Facebook / Instagram/Tiktok )
- ✓ Meta Ads Campaign Management & Performance Optimization
- ✓ AI-Assisted Website and APP Development and E-Commerce Deployment
- ✓ AI-Generated Branding & Logo Design and Branding
- ✓ Digital Marketing
- ✓ Website Development & Hosting Management and SEO Optimization

## Work Experience

**Beirut-IT- IT Consulting and Freelancing – Beirut, Lebanon** **Jul 2017 – Present**
**IT Manager**

- ✓ Managed a 102-member cross-functional team, both on-site and remote. Single- and multi-vendor project teams, improved service standards, and optimized vendors' evaluations, resulting in improved service quality.
- ✓ Pioneered the development and implementation of novel service standards, resulting in an enhanced service quality, while introducing innovative fee structures and a strategic marketing plan that lead to a substantial increase in sales.
- ✓ Achieved a remarkable 20% increase in Beirut-IT Consulting's business volume within the initial 3 months by revamping the company's website, www.beirut-IT.com, and utilizing social media and Google's search engine to expand advertising reach.
- ✓ Proficiently managed incoming correspondence, including emails from tenders boards and freelancers' work histories, as well as the allocation of new tasks via the Dot Project system, ensuring streamlined communication and task allocation processes.
- ✓ Developed company digital presence including website architecture, SEO optimization, Meta advertising campaigns, and AI-assisted branding, increasing online visibility and customer engagement.

**Crystal Networks –Beirut, Lebanon** **Jul 2015 – Aug 2023**
**Head of Information Technology Services**

- ✓ Headed a 10-member team at Crystal Network as the IT Service Head, overseeing the fortification of the company's IT infrastructure. Successfully implemented cutting-edge technologies and design enhancements, resulting in a 40% reduction in system downtime and a 25% increase in overall network speed.
- ✓ Orchestrated the management of network licensing agreements and ensured seamless IT service delivery to SMEs in the BCD region, overseeing the IPTV head-end and platform. Achieved 95% customer satisfaction rating.
- ✓ I developed and implemented comprehensive company-wide IT policies and procedures, managed hardware and software installation projects, and spearheaded efficiency improvement initiatives. Additionally, I conducted regular inventory audits and played a key role in adapting the ERP system to align with evolving business needs
- ✓ Spearheaded system upgrades and meticulously documented procedures, security and disaster recovery plans, ensuring adherence to industry best practices. Retained detailed records of user, function, and system changes,
- ✓ Managed network infrastructure, monitoring system performance, handling outages, and overseeing software and hardware procurement. Configured and maintained servers, including those in the data center.

**Orange Business Services – Beirut, Lebanon** **Oct 2011 – Jul 2015**
**IT Senior System Administrator**

- ✓ Supervised a cross-functional team of 15 administrative and technical professionals as a Senior System Administrator at Orange Business Services, fortifying the company's IT infrastructure with cutting-edge technologies.
- ✓ Managed infrastructure design, including IPTV head-end, SME data center services, and POS service on the BBN network.
- ✓ Drove efficiency and improvement efforts, working closely with senior management to enhance operations, conduct inventory audits, and optimize the IT infrastructure. Managed ERP system adaptation, system upgrades, and maintenance.
- ✓ Created documentation for ICT protocols, security, and disaster recovery. Maintained records of user, function, and system changes. Conducted internal and hosted network infrastructure, ensuring performance and availability.
- ✓ Streamlined procurement of software, hardware, and IT resources. Keep antivirus system up to date across the organization

**Khatib & Alami and Partner - Muscat Oman** **Jan 2009 – Jul 2011**
**IT System Administrator**

- ✓ Managed IT infrastructure and system operations for Khatib & Alami & Partners, resolving hardware, software, and user issues while collaborating with external IT specialists on complex technical solutions.
- ✓ Administered Windows Server environments, Active Directory, backup and disaster recovery systems, while overseeing IT procurement and project budgets.
- ✓ Supported a distributed IT environment serving 25+ employees, providing helpdesk support, managing network printers, and maintaining GIS ArcMap systems.
- ✓ Led system migration initiatives including the upgrade from ESRI SDE 9.1 to ESRI SDE 10, improving database performance and system reliability.

**Khatib & Alami – Beirut,Lebanon** **Dec 2005 – Jan 2009**
**Information Technology Technical Support**

- ✓ Provided IT support as the primary contact for technical issues, managing TCP/IP networks, DNS, DHCP, and Domain Controller and Group policy environments, resolving 75+ issues monthly.
- ✓ Managed user accounts, backup procedures, and system access, ensuring smooth onboarding and reliable system operations
- ✓ Installed and maintained servers, hardware, and enterprise systems, troubleshooting issues across Windows, Linux/Unix, and Office
- ✓ Managed ISA Server 2004 internet gateway and maintained printing infrastructure including HP A0 plotters and network printers.

## Key International Projects

**KSA: Royal commission Yanbu, Smart City – KSA Yanbu** **Jan 2015 – May 2015**

- ✓ Throughout the $1 million Data Center redesign initiative, defining architectural strategies for data storage, server deployment, OS configuration, clustering, and VMware Infrastructure.
- ✓ Key contributor to the launch of Saudi Arabia's first smart city in Yanbu, a collaboration between The Royal Commission of Yanbu, Mobily subsidiary Bayanat, and Orange Business Services.
- ✓ Implement the creation and operation of an integrated telecom and IT network in Yanbu Industrial City, facilitating strategic partnerships with global technology providers to introduce more than ten innovative services enhancing public facilities and city operations.

**Medc & Mazoon Electricity Company. Muscat- Sultanate of Oman** **Jan 2009 – Jul 2011**

- ✓ Collaborated with MEDC and Mazoon to develop a GIS Mobile and Navigation Solution Framework for data collection and validation in the electric utility network, covering 16,000 kilometers of network lines, 6,500 distribution substations, and 140,000 customer records.
- ✓ Developed and instigated an efficient Geodatabase using cutting-edge ArcGIS technology, streamlining data management processes and reducing data retrieval time by 40%.
- ✓ Managed the procurement of GIS applications within a $2.7 million project budget, optimizing utility network operations through the integration of GIS tools and software solutions.

**Training on the Implement the ESRI GIS ArcMAP, ArcFM and ArcSDE also oracle10G on EWA HQ Data center – Bahrain -2005**

- ✓ Launched a multi-year enterprise GIS project in September 2005 to enhance mission-critical operations at EWA and establish a comprehensive information system for daily ministry tasks.
- ✓ Managed the implementation of a new GIS infrastructure and integrated applications to improve customer support. Ensured seamless interfacing with existing Oracle-based business applications using ESRI's GIS platform and Miner & Miner's ArcFM.
- ✓ Initiated a project in September 2005 to optimize EWA's operations, focusing on an advanced information system for better management of critical activities and daily ministry functions.

## Education

**Bachelor of Science in Information technology –** American InterContinental University **2007 – 2009**

- ✓ **Online Campus**

## Courses & Certifications

- ✓ **AI for Business Operation (Coursiv)**
- ✓ **Master of Claude (Coursiv)**
- ✓ **AI Essentials for Project Managers (Coursiv)**
- ✓ **Master of Loveable (Coursiv)**
- ✓ **Master of ChatGPT (Coursiv)**
- ✓ **ITIL 4 Fundamentals - Essentials of IT Service Management**
